Fushun Li to Spearhead Company's New Business and Growth Initiatives

NEW YORK and SHENZHEN, China, May 11 /PRNewswire-Asia-FirstCall/ -- China Digital Communication Group (OTC Bulletin Board: CHID - News), a leading manufacturer of battery components in China, announced today that a Chinese business leader with over 20 years of management and electronics industry background is its new Chief Executive Officer and director.

Mr. Li was formerly the founder and president of Shenzhen Kai Bi Te Tech. Co., Ltd, an electronic components and 3C electronic products manufacturer that reached revenues in excess of 1 billion RMB under his leadership. Mr. Li's background spans more than 20 years in various executive roles at equipment manufacturers and electronic companies in Shenzhen and Guangzhou.

"I am excited to be appointed the new CEO of China Digital Communication, and I look forward to driving the new business strategies that will enable the Company to realize its full potential in China," said Mr. Li. "I strive to improve our current financial and business development initiatives based on my strong management and marketing background in the electronics industry in China."

Mr. Li's professional background includes management roles at Guangzhou Xunxing Communication Equipment, a subsidiary of China Telecommunication Corporation.

"After full evaluation of the company's manufacturing processes we hope to diversify China Digital Communication's product line and enhance our visibility both with battery cell manufacturers in China, as well as the investment community in the United States," said Mr. Li. "I will be working closely with my management team and our financial communications firm to ensure that stockholders are kept fully informed of the Company's initiatives and achievements in the coming weeks and months."

About China Digital Communication Group

China Digital Communication Group, through its wholly owned subsidiary, Shenzhen E'Jenie Science and Technology Co., Ltd. (E'Jenie), is one of China's leading manufacturers and developers of advanced telecommunications equipment. E'Jenie sells advanced high-quality lithium-ion battery shell and cap products to all major lithium-ion battery cell manufacturers in China. E'Jenie's products are used to power mobile phones, MP3 players, laptops, digital

cameras, PDAs, camera recorders and other consumer electronic digital devices. China Digital Communication Group is continuing its expansion across East Asia, while seeking distribution partners and acquisitions in new global markets, including the U.S.
